

SHOES

Sandwell Health's Other
Economic Summit

 **Final**
Programme

Green, Well, Fair

A conference not to be missed!

This year's conference is even more important than ever before, following an unprecedented 12 months which has seen the collapse of the world's financial systems.

This has caused tremendous uncertainty and insecurity for many, as the force of the global phenomenon unfolds, the impact may be felt in every living room and every High Street.

In the tradition of Sandwell Health's Other Economic Summit (SHOES) which coincides with the G8 summit, we will be examining how local issues can impact on world health and how global issues affect us.

The conference will focus on a number of themes around the credit crunch, poverty, welfare rights, time banks and health care for those of us lucky enough to receive it.

Distinguished national and local experts in these fields will share their views and examine practical solutions. At the same time we need to consider how we rebuild a resilient and financially secure future for all.

For further information contact Joanne Steventon on **0121 612 1632** or email: shoes@sandwell-pct.nhs.uk

Last year nearly 200 people attended and this year the conference will be even bigger and better.
